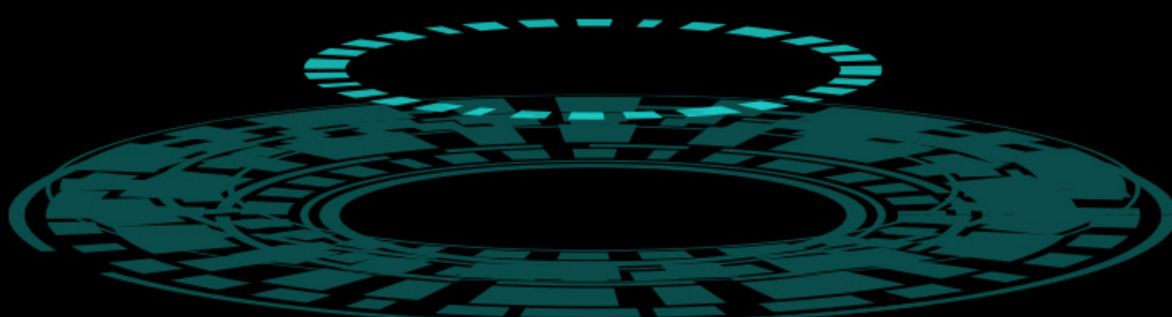
INTRODUCTION

1.1 PROJECT OBJECTIVE

The AionicfundToken project is designed to enhance efficiency and reduce latency in augmented reality (AR) systems through blockchain technology. The project particularly focuses on metaverse platforms such as MetaAds and MetaGame, aiming to deliver a superior user experience through innovative strategies.

1.2 BACKGROUND

Blockchain and artificial intelligence (AI) are recognized as key drivers in the development of next-generation technologies. Blockchain, with its emphasis on data security and transparency, can help address major challenges faced by the metaverse. Meanwhile, AI can optimize the performance of AR platforms, offering users a more intelligent and personalized experience.



EXISTING PROBLEM

2.1

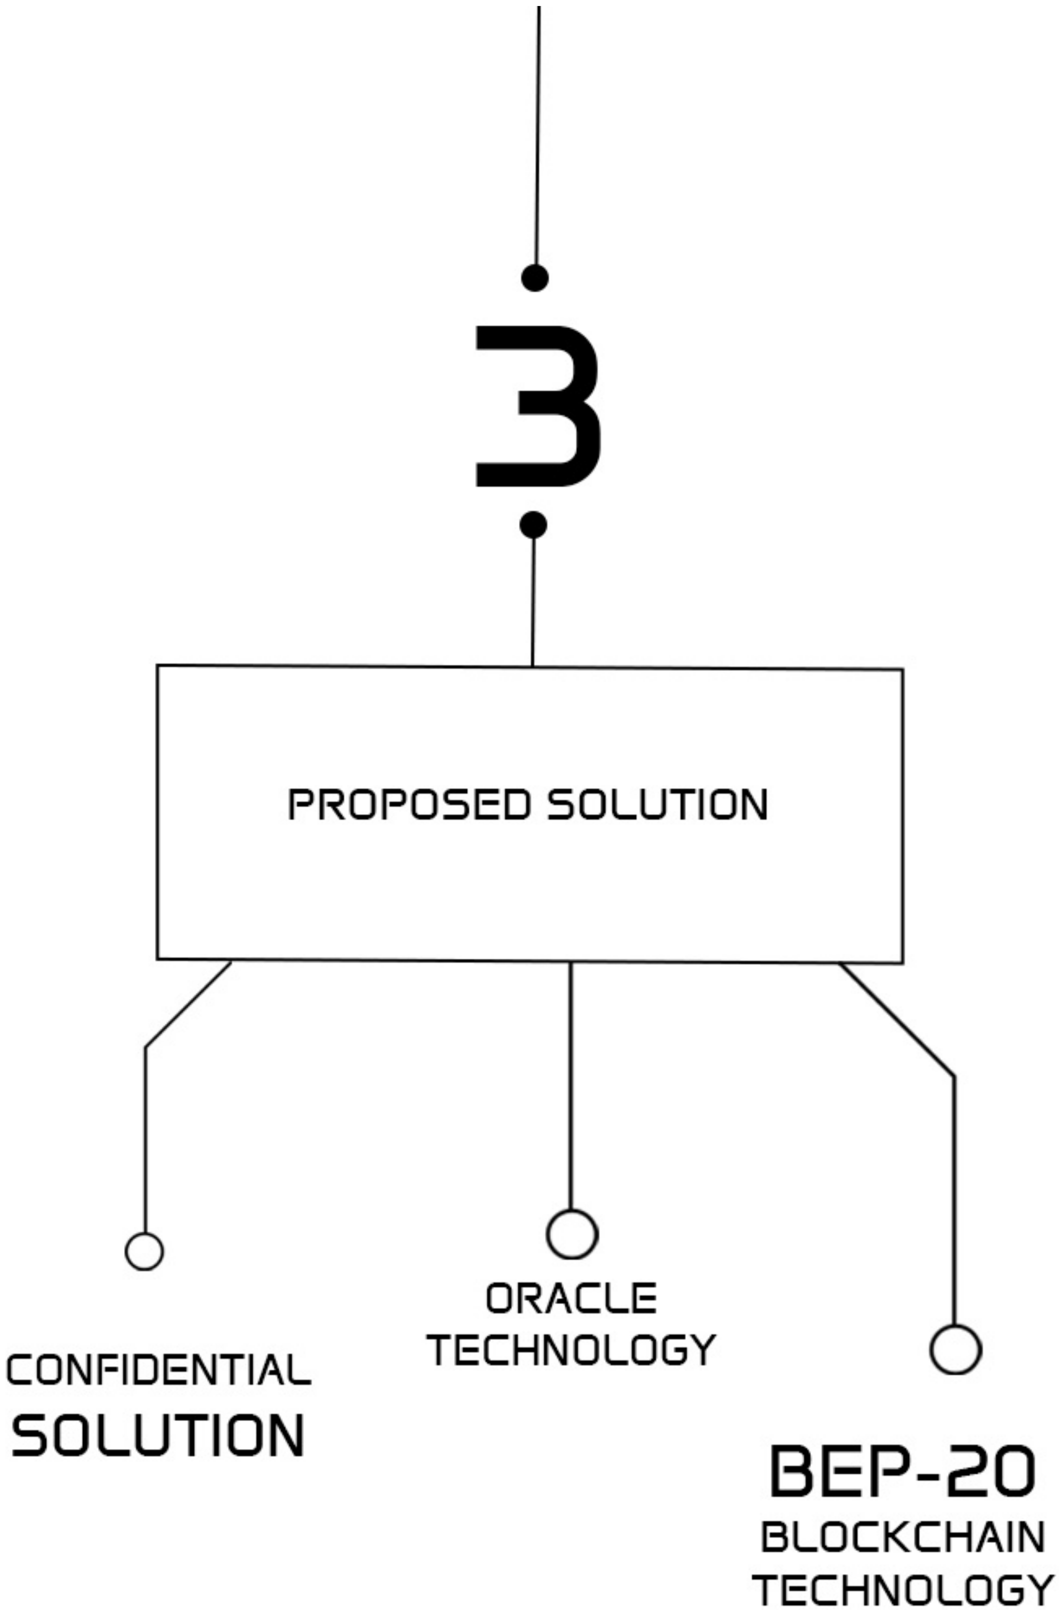
PROBLEM DESCRIPTION

One of the primary challenges in metaverse AR systems is latency and complexity in executing digital environments. This latency can arise from bandwidth limitations or heavy processing demands on servers. Issues related to delays and response times can degrade user experience and put significant strain on network infrastructure.

2.2

SUPPORTING RESEARCH

Independent research indicates that existing systems struggle to handle the concurrent demands of thousands of users, leading to negative user experiences. Metaverse developers need scalable solutions that can dynamically optimize system performance to overcome these limitations.



3
PROPOSED SOLUTION
CONFIDENTIAL
SOLUTION
ORACLE
TECHNOLOGY
BEP-20
BLOCKCHAIN
TECHNOLOGY

CONFIDENTIAL SOLUTION

The AionicfundToken R&D team has devised an innovative and proprietary solution to address these challenges. For competitive reasons, specific details remain undisclosed at this stage. However, these solutions revolve around optimizing processing algorithms and intelligent resource allocation to significantly enhance system efficiency.

Oracle Technology

bridges the gap between the physical and digital worlds by offering cutting-edge solutions. In this project, leveraging tools like Oracle Cloud Database and data integration systems, we enable seamless interaction between these two realms. This technology not only facilitates data transfer and processing but also uses AI and real-time analytics to create a dynamic and intelligent connection between real-world and virtual environments."

BEP-20 BLOCKCHAIN TECHNOLOGY

Utilizing Binance Smart Chain (BSC) and the BEP-20 standard for tokenizing resources and assets offers substantial advantages. BSC, with its smart contract capabilities and high transaction processing speed, provides a stable and fast environment for users.

TOKENOMICS

TOKEN SPECIFICATIONS

TOKEN NAME	AIONICFUNDTOKEN
SYMBOL	AION
TYPE	BEP-20
INITIAL SUPPLY	1.000.000.000 TOKENS
MINIMUM SUPPLY	20.000.000 AION(burning stops at this amount)
DECIMALS	18

TRANSACTION

TAXATION AND TOKEN BURNING

%0.5

To the Owner:
Project development

%1.5

Reward Fee:
Automatic distribution

%0.5

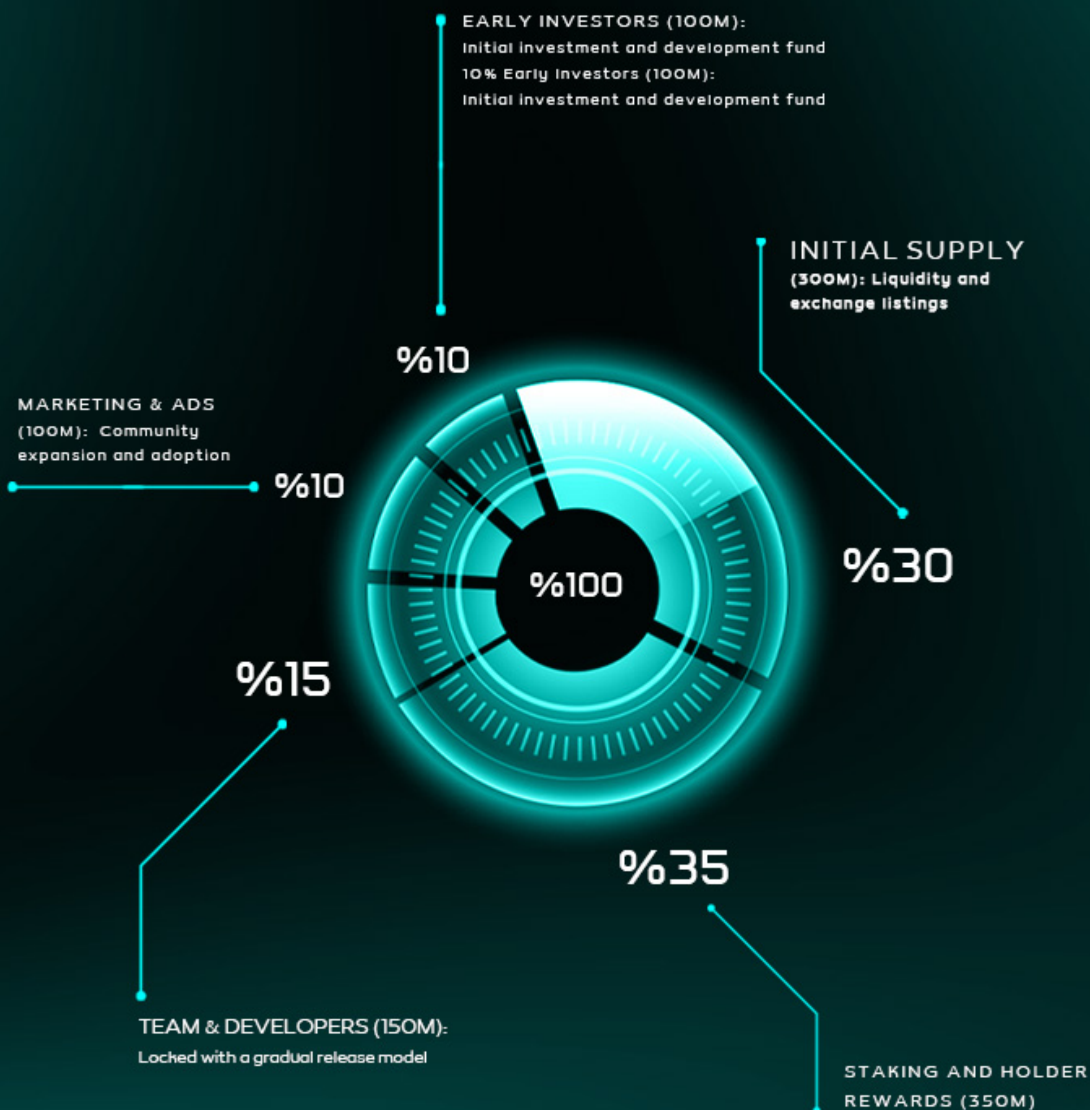
Token Burn:
Reducing inflation
and increasing value

TAXATION AND TOKEN BURNING

Transaction Fee: 2.5%, including:
- Burn Fee: 0.5%
- Owner Fee: 0.5%
- Reward Fee: 1.5%
- Total Fee: 2.5%

INITIAL TOKEN DISTRIBUTION

Token Allocation



- Liquidity Pool: 300.000.000 AION (30%)
- Smart Contract: 350.000.000 AION (35%)
- Development Team: 150.000.000 AION (15%)
- Marketing: 100.000.000 AION (10%)
- Owner: 100.000.000 AION (10%)

HOLDER CONDITIONS AND REWARDS

1

Minimum Balance for Holder Status: 100 AION

2

Holder Rewards

- Funded by 1.5% transaction fee
- Distributed proportionally to eligible supply share
- Eligible supply: Sum of all holder balances with 100 AION

3

Claiming Rewards

- Users can claim rewards anytime
- Rewards calculated based on share of eligible supply

Staking Reward Distribution System

AionicFund Token (AION)

1. Overview

AionicFund (AION) implements a dynamic staking reward system designed to incentivize long-term token holders while maintaining network stability.

The system distributes rewards based on

Staked amount

Tiered APY structure

Staking duration

2. REWARD DISTRIBUTION MECHANISM

2.1. KEY PARAMETERS

Minimum Stake	100 AION
Reward Eligibility	Starts after 7 days
Reward Calculation	Daily compounding

2.2. Tiered APY Structure

Staked Amount	Base APY	+30 Days	+90 Days	+180 Days
<1.000.000 AION	8%	10%	11%	13%
>1.000.000 AION	10%	12%	13%	15%

2.3. Reward Formula

Daily Reward = (Staked Amount × Adjusted APY) ÷ 365

Example Calculation:

- User stakes 500.000 AION for 90 days (11% APY)
- Daily reward: (500.000 × 11%) ÷ 365 (150.68 AION/day)
- Total after 90 days: ~13.562 AION

3. REWARD DISTRIBUTION PROCESS

3.1

SOURCE OF REWARDS

– 15‰ (1.5%) OF EVERY TRANSACTION FEE IS ALLOCATED TO THE STAKING REWARD POOL
– ADDITIONAL REWARDS MAY COME FROM:
– PROTOCOL REVENUE
– TREASURY ALLOCATIONS

3.2

DISTRIBUTION LOGIC

1. REAL-TIME ACCRUAL: REWARDS ACCUMULATE DAILY IN THE SMART CONTRACT
2. CLAIM MECHANISM:
   – USERS MANUALLY TRIGGER CLAIMSTAKINGREWARD() TO RECEIVE ACCUMULATED REWARDS
   – CLAIMING RESETS THE STAKING TIMER (FOR APY TIER PROGRESSION)
3. AUTO-COMPOUNDING:
   – USERS MAY OPTIONALLY RE-STAKE REWARDS TO COMPOUND EARNINGS

3.3

ANTI-MANIPULATION FEATURES

- 7-DAY COOLDOWN: PREVENTS REWARD FARMING
- PRO-RATA DISTRIBUTION: ENSURES FAIR ALLOCATION DURING HIGH NETWORK ACTIVITY
- SLASHING PROTECTION: NO PENALTY FOR UNSTAKING

4. ECONOMIC BENEFITS

4.1. FOR STAKERS

- HIGHER APY FOR LONG-TERM COMMITMENTS (UP TO 15%)
- FLEXIBLE WITHDRAWALS (UNSTAKE ANYTIME WITHOUT PENALTY)
- TRANSPARENT TRACKING OF REWARDS VIA BLOCKCHAIN EXPLORERS

4.2. FOR NETWORK HEALTH

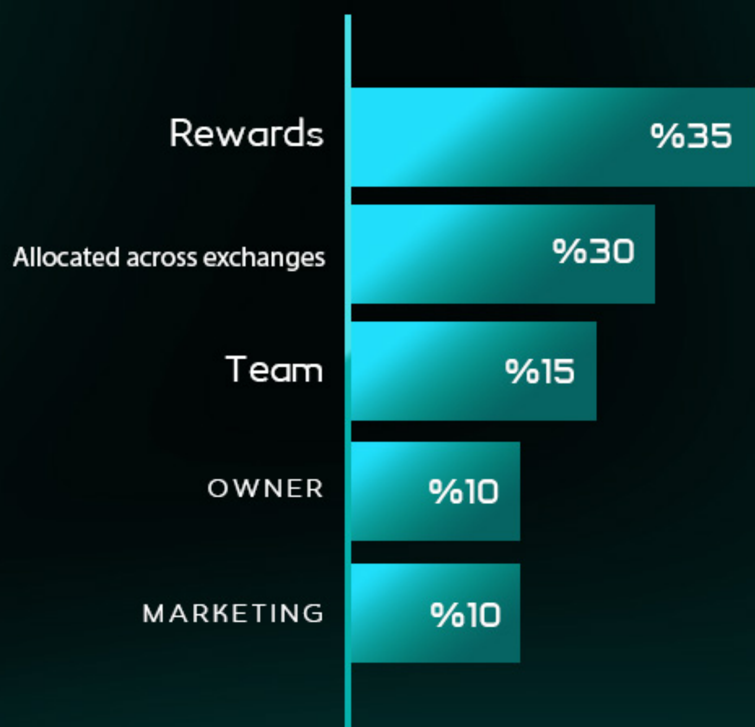
- REDUCED SELL PRESSURE FROM LOCKED STAKES
- SUSTAINABLE INFLATION CONTROLLED BY TRANSACTION FEE BURNS
- GOVERNANCE PARTICIPATION (FUTURE DAO INTEGRATION)

5. Conclusion

The AION token (Aionicfund Token) is a strategically designed digital asset built on the Binance Smart Chain (BEP-20), serving as the backbone of the Aionic.fund ecosystem. With its advanced tokenomics, AION ensures a balanced and sustainable model that benefits all stakeholders—holders, stakers, developers, and the broader community.

Key Strengths

Fair Distribution



Allocated across exchanges (30%), rewards (35%), team (15%), owner (10%), and marketing (10%).

Key Strengths

Holder Incentives

1.5% transaction fee redistributed to holders,encouraging long-term participation.

Deflationary Mechanism

0.5% burn per transaction until the minimum supply (20M AION) is reached.

Flexible Staking

Competitive APY (8-20%) with bonuses for longer lock-up periods.

Advanced Vesting

Customizable vesting schedules with pause/resume functionality for secure, controlled releases.

Secure & Transparent

Audited smart contract with anti-reentrancy, emergency pause, and multi-sig ownership controls.

Future Vision

AION is positioned to evolve into a multi-chain governance and utility token, integrating deeper into Aionic.fund's DeFi ecosystem while expanding its use cases across decentralized finance (DeFi), staking, and community-driven decision-making.

By combining transparency, rewards, and security, AION offers a compelling opportunity for investors and users seeking sustainable growth in the blockchain space.

TOKEN VESTING PLAN FOR COR TEAM

Team Token Locking

- 15% of total tokens will be locked in the team address
- Released every three months through a smart contract management system

ASSISTANTS

Overview

Total Allocation — 150.000.000 AION (15% of total supply)

Vesting Period — 24 months (2 years)

Cliff Period — 6 months (no tokens released)

Post-Cliff Distribution — Linear monthly release over 18 months

Recipients — Core development team, advisors, and key contributors

Vesting Schedule

1

Cliff Period (Months 0-6)

– No tokens are released during the first 6 months.

– Ensures long-term commitment from team members before any distribution begins.

2

Monthly Vesting (Months 7-24)

– Tokens unlock linearly every month for 18 months.

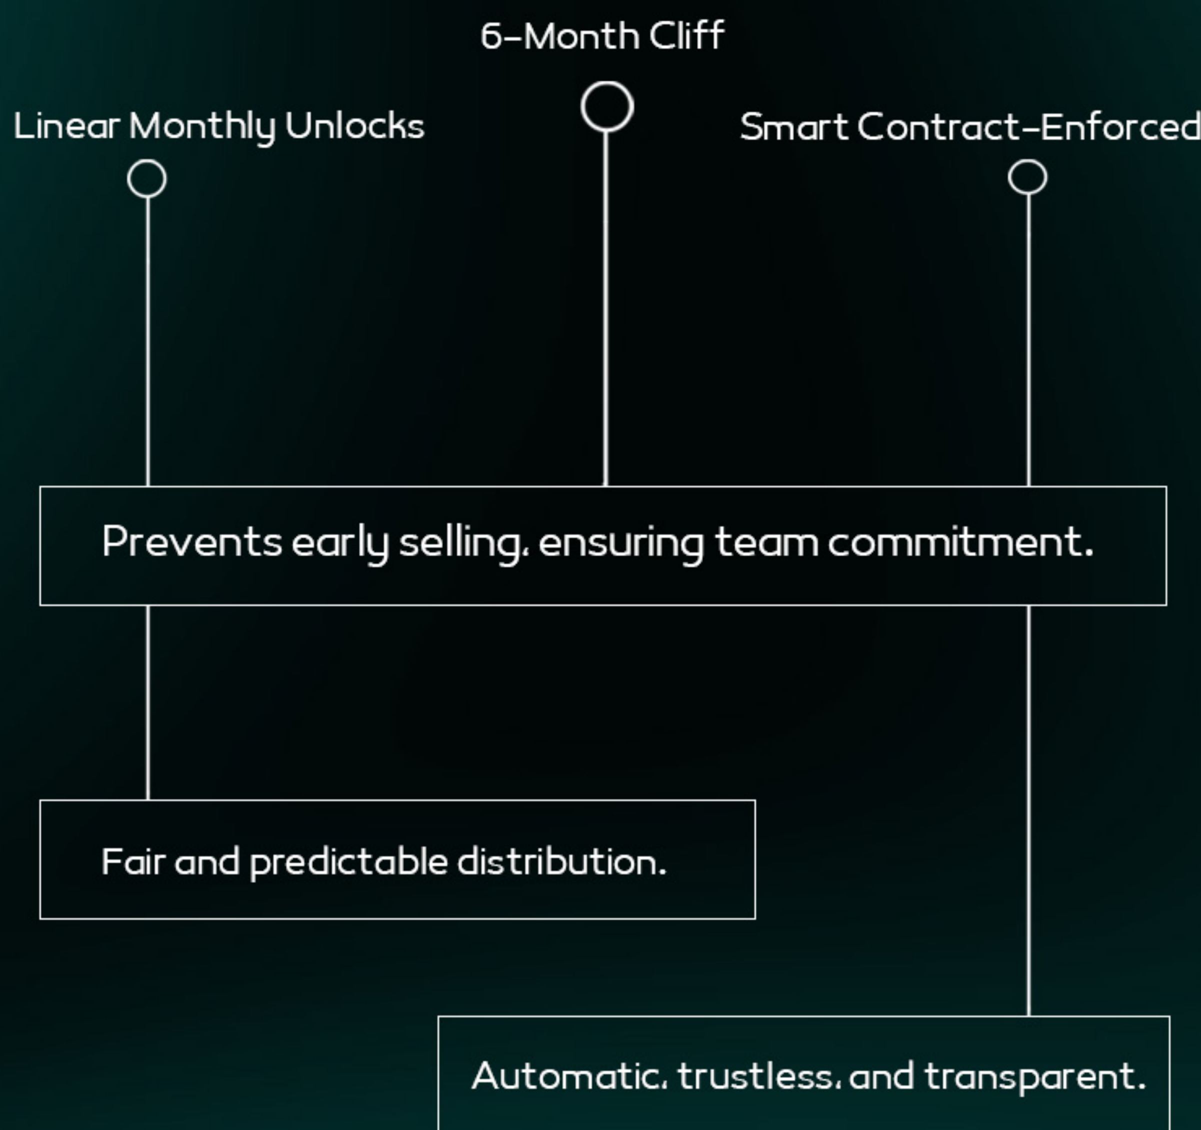
– Monthly release: 8.333.333 AION per month.

– Total vested after 24 months: 150.000.000 AION (100%)

Detailed Vesting Timeline

Month	Status	Token Released	Cumulative Released
0-6	Cliff (Locked)	0 AION	0 AION
7	First Unlock	8,333,333 AION	8,333,333 AION
8	Monthly Unlock	8,333,333 AION	16,666,666 AION
24	Final Unlock	8,333,333 AION	150,000,000 AION

Key Features



6-Month Cliff: Prevents early selling, ensuring team commitment.

Linear Monthly Unlocks: Fair and predictable distribution.

Smart Contract-Enforced: Automatic, trustless, and transparent.

Claiming Process

After the cliff, team members can claim their vested tokens monthly.

Tokens are automatically released according to the schedule.

No manual intervention required—fully decentralized execution.

SPECIAL CONDITIONS

Early Termination: If a team member leaves before full vesting, unvested tokens are returned to the treasury.
Accelerated Vesting: In exceptional cases (e.g., major milestones), up to 20% of remaining tokens may unlock early via governance vote.

AIONIC ROADMAOP

PHASE 1

PLANNING AND DEVELOPMENT (Q1 2025)

- Define tokenomics and smart contract architecture
- Deploy test version of the contract on BSC Testnet
- Receive feedback and address TechRate security issues

PHASE 2

LAUNCH AND LIQUIDITY PROVISION (Apr.2025)

- Deploy final version on BSC Mainnet
- List on DEX platforms like PancakeSwap
- Initiate marketing campaigns

PHASE 3

Community Growth and Market Adoption

(Jan. 2025)

- Registration on CoinGecko and CoinMarketCap
- Listing on centralized exchanges (CEX)
- Launch staking and yield farming programs

PHASE 4

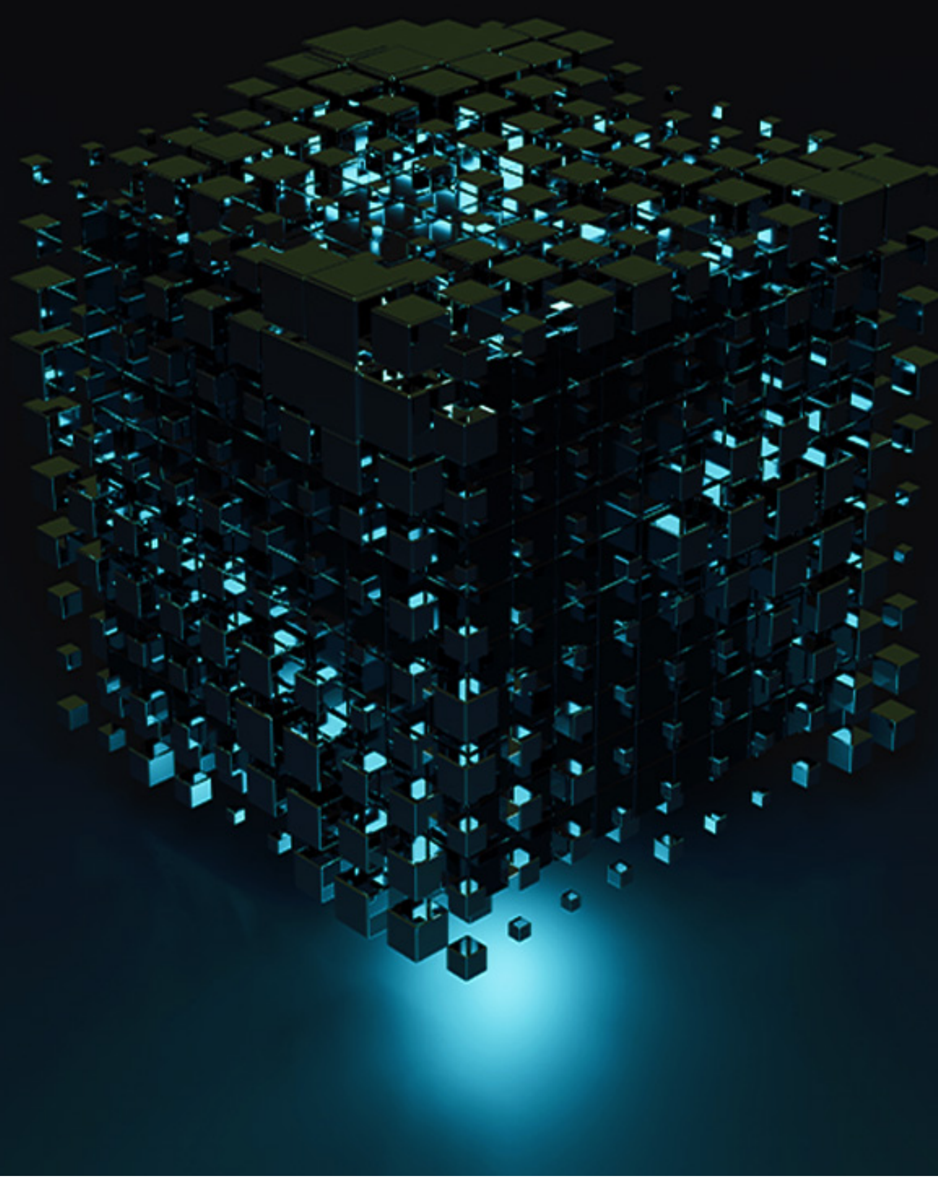
Ecosystem Development

(Apr.2026)

- Collaborations with DeFi and GameFi projects
- Launch proprietary in-app payment platform
- Expand token utility in real-world projects

Development

Community Engagement Strategy



ROADMAP

Airdrops:

Attracting early users

Exchange Listings

Increasing liquidity

User Education

Enhancing knowledge and interaction

COMMUNITY INTERACTION

A DAO-based governance structure for decision-making, hosting events, and creating social clubs will strengthen user engagement and participation.

FUTURE VISION

By addressing latency issues in AR environments, AionicfundToken is poised to make a fundamental impact. The ultimate goal is for AionicfundToken to be recognized as a leader in blockchain and metaverse technologies, setting new standards for efficiency and usability.

INVITATION TO PARTICIPATE

We invite users, developers, and investors to join this project and contribute to its development. This is an opportunity for everyone to play a role in one of the most exciting and cutting-edge areas of technology.

AIONIC

Join the Aionic.fund ecosystem — stake, hold, and grow with AION.
